Flo-master felt tip pens are 5 times more versatile than any marker...

The secret? *Five* differently shaped, instantly interchangeable tips. You can draw extra-broad, web-fine or any line width in between. You can produce effects that resemble India ink pen, drawing pencil, charcoal, and even an artist's brush. Because Flo-master releases ink through *valve-action*—*you* control the flow. Choose among 8 vibrant, transparent, blendable colors. And unlike markers, Flo-master is built to last forever—it's *refillable*. Try it. Esterbrook's Advanced Flo-master—only $3.00.

THE BEST BOOK ON MAKING COLLAGES
—invaluable for both teacher and student

The author of the best-selling *How to Make Collages* tells how to create attractive compositions using bits of colored paper, fabric, cut-outs, photographs, etc. He takes the reader step-by-step through many projects, suggests appropriate materials to use and gives sources of design. Reproductions of collages by famous artists are included among the more than 60 illustrations, 8 in color. $4.95 *postpaid*

Now Available over 270 AMACO GLAZES in both Liquid and Powder Form

The wide selection of gloss, matt and textured Amaco Glazes, formerly available only in dry powdered formulas, are now prepared in time-saving liquid form. Wet grinding insures extra fineness and super-smooth application. Ready-to-use Amaco Liquid Glazes are supplied in 4-oz. and 16-oz. glass jars and in gallons, too. Airtight foil inner seals on the glass jars keep these liquid glazes "factory fresh." Try them!

Dry formula Amaco Glazes remain a favorite of many users. The strong, envelope-type, one pound paper bags with tin ties are so easy to store, and the glazes are mixed with water as needed. Liquid or dry, Amaco Glazes are best! Remember, too, Amaco clays and glazes are matched for perfect results. Send for the 1961 catalog No. 46, "Amaco Pottery and Metal Enameling Supplies and Equipment," with glaze color chart.
